Faraz **Naseem**

✉ naseemf@uwindsor.ca | ▢ 1(519)9874820 | ⚲ Windsor, Ontario, Canada | ⛓ https://github.com/farazn019

Education

University Of Windsor   *Windsor, Canada*
BS in Computer Science   *September 2019 – April 2023*
GPA: 3.3

Work Experience

University Of Windsor   *Windsor, Canada*
Teaching Assistant   *May 2020 – August 2020*
- Teaching Assistant for, Introduction To The Internet. My responsibilities included: marking websites that students made, ensuring that students were comfortable creating websites using HTML and CSS, along with assisting students that did not understand concepts related to creating websites.

Skills

Languages: C++, Java, Python, C, JavaScript, HTML, CSS, MySQL
Libraries and Frameworks: Qt, Pandas, Numpy, Matplotlib
Tools: Git, VS Code, IntelliJ, Android Studio

Projects

Student Information System   *C++, MySQL, Python*

A Management System that I am currently creating to allow students to view all their marks throughout the current semester. The Desktop Application is made with Qt, and the student data is stored in a MySQL database. The data is fetched by using the Python Blackboard API.   *https://github.com/farazn019/Student-Management-System*

Dow Jones   *Python, Yahoo Finance API, Matplotlib, Numpy, Pandas*

This is a Stock Market GUI, that collects price data using the Yahoo Finance API for companies that make up the Dow Jones. By using the Yahoo Finance API and Python, I was able to store the most recent price data of the Dow Jones companies, and plot that data, using Python's Data Science libraries.   *https://github.com/farazn019/DowJones*

Awards

October 2019	**2019 ACM ICPC Regional Contestant**, Our team was recognised as the only team with freshmen who were able to qualify for the ICPC Regional Contest, out of 15 competing teams.	*University Of Windsor*
